**GENERAL DESCRIPTION:** In the offering is a very nice 62 plus acre unimproved parcel of gently rolling Elgin Township farmland. It is extremely rare in this day and age of consolidation of holdings to have a 62 plus acre piece come on the market. If you have always wished you could get started in the wonderful investment world of farmland ownership but didn't want to spend millions, this could be a great chance. Strategically located by Craig, Ireton, Sioux Center, Maurice and Le Mars, you couldn't find a stronger, more ideal setting to own a farm in.

The Plymouth County FSA Office shows 60.45 acres of cropland w/a 32.37 acre cornbase w/ a 141bu. PLC Yield Index and a 28.08 acre soybean base w/a 51bu. PLC Yield Index. The Plymouth County NRCS & Assessors Office shows the main soil types to be Galva, Radford and Ida with a CSRII weighted average of 72.5. **These good numbers as well as the care this farm has had should make it a high yielding, productive farm.** There are lots of options with this farm, be sure to give it serious consideration.

Whether this is your start or an addition to your existing operation you won't be sorry if you add this to your portfolio. Remember, all of the big operations at one time or another started out small when someone back in history took that first bold step. Will that person be you? I hope so! Best of Luck! *Bruce R. Brock*
