

# 7,200 SQ FT. CEMENTED BUILDING

60 FT.

120 FT.

The image shows the interior of a large industrial warehouse. The floor is made of concrete and shows some wear and stains. The walls are constructed from corrugated metal panels. The ceiling is high, with a series of dark metal beams supporting a corrugated metal roof. Several industrial-style pendant lights are hanging from the ceiling, providing illumination. In the background, a large overhead door is open, allowing bright natural light to enter the space. To the left of the door, there is a small utility area with some equipment. To the right, there are some storage items, including a red fire extinguisher and some boxes. The overall atmosphere is that of a functional, well-maintained industrial space.
