Sale to be Held at the Oto Ambulance Center

METHOD OF SALE: The property will be sold with the high bidder having their choice of Tract 1 or 2 or both tracts. In the event both tracts are taken after the first round, the auction of those 2 tracts is over. In the event only 1 of those tracts are taken, the remaining tract will be offered. Tracts 3,4,5,6 & 7 will be auctioned in their numerical order individually with no combination available. The tracts will not be combined and offered as a single unit.

GENERAL DESCRIPTION: What An Amazing Offering. We will be offering 7 distinct tracts, each of which have their own unique attributes. An opportunity to purchase some of the areas best producing river bottom land, as well as some rolling land close by. The following is a partial breakdown of the tracts. All acres, boundaries and other information are approximate and will be determined by the FSA Office according to the guideline once new ownership has been determined.

Wow!! When was the last time you had a chance to buy from 17.5 acres up to over 530+ acres at one auction?

The diversity in this offering is quite unique, in the fact that it ranges from some of the top producing flat river bottom land in the area to an awesome combination Recreational Hunting and Fishing/ Farm combination / 80-acre tract and everything in between. Finding units like this is becoming more and more difficult as small tracts are being

combined with larger operations. If you don't want to spend years trying to build a sizeable farming footprint close together, you now have an opportunity to get it done in 1 day. If you are trying to match land that fits your current operation and don't want 500+ acres, you also have that option as well. Well thought out and executed plans will help insure a strong stable future for your farming legacy, whatever they may be. One or all of these farms will only strengthen and enhance your goals. Good Luck to everyone. *Bruce R Brock*
