GENERAL DESCRIPTION: In this offering is a **Super Western Plymouth County Farm** located just 2 miles South of Akron, Iowa on K-13. This neat farm offers a combination of gently rolling land to the South and flatter bottom ground to the North and West. The land appears easy to farm and has been well cared for and held in a high state of production.

The Plymouth County FSA Office shows 80.45 Cropland acres w/a 46.21 acre Cornbase w/a 114 bu. P.L.C. Yield Index and a 33.79 acre Soybean base w/a 38 bu. P.L.C. Yield Index. The NRCS and Assessors Office shows the main soil types to be McPaul and Ida with a sprinkling of Galva and Kennebec-McPaul. The farm carries a weighted CRSII average of 56.2. These are very good numbers for Western Plymouth County with approximately 41% of the land carrying a CSRII from 72-84.

With the quality of this farm being what it is and in these uncertain times, people in all industries are flocking to own quality hard assets and this one fits that criteria to a tee. Not too big and not too small to fit into any operation, this farm should be very attractive to a lot of folks. Located so close to the great town of Akron and just a quick trip down Highway 12 to Sioux City will offer a myriad of marketing options. Having all those options: livestock feeding, ethanol and terminal grain markets so close to easy access make it even more desirable. Your family and your current operation deserves you giving this nice farm strong consideration. Best of Luck to All!
